SUBJECT: **DEMONSTRATION / DELIVERY HOLD - Safety Recall 01S13:** Certain 2001 Model Year Focus Vehicles, Four (4) Door and Wagon Models Only – Seat Back Recliner Handle Spring Replacement

AFFECTED VEHICLES

Certain 2001 model year Focus vehicles, four (4) door and wagon models only, built at the Wayne Assembly Plant from March 12, 2001 through March 22, 2001.

SAFETY CONCERN

Affected vehicles are equipped with a seat back recliner handle spring that does not have sufficient tension to keep the seat back pawl and sector engaged. Insufficient engagement of the pawl and sector may result in the seat back moving unexpectedly to the recline position. If this occurs while the car is being driven, it could result in loss of vehicle control.

SERVICE ACTION

Dealers are directed to replace the seat back recliner handle spring in both the driver and passenger seat. This service must be performed on all affected vehicles.

Do not demonstrate or deliver any vehicles affected by this recall until this repair has been performed.

PLEASE NOTE

Correct all vehicles in stock before delivery. Federal law requires dealers to complete any outstanding safety recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to $5,000 per vehicle.
