For Owners in CA, MA, ME, and VT only: Emissions Recall 02E21

Mr. John Sample
123 Main Street
Anywhere, CA or MA 12345

Your Vehicle Identification Number: 12345678901234567

Ford Motor Company values you as a customer and is committed to vehicle quality and the environment. Therefore, we are voluntarily recalling certain 2002 Thunderbird vehicles that may have been built with the Catalyst Monitor Sensor Connectors reversed. As a result, your vehicle may be releasing air pollutants that exceed California emission standards, which also apply in Massachusetts, Maine, and Vermont.

What is the emission concern?…

The Catalyst Monitor Sensor Connectors may be incorrectly routed in your vehicle. This may result in the vehicle producing excessive emissions without illuminating any warning lamp.

What Ford Motor Company and your dealer will do...

Ford Motor Company will inspect and, if necessary, repair your vehicle free of charge (parts and labor). Please contact your dealer for this free inspection/repair.

If you do not have this inspection performed, your:

- Emissions warranty may be reduced.
- Vehicle may not pass emissions or smog tests that may be required in your area.
- State Department of Motor Vehicles may not renew your vehicle registration.

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling issues, your dealer may need your vehicle for a longer period of time.

What we are asking you to do…

When you bring your vehicle in, show the dealer this letter. If you misplace this letter, your dealer will still do the work, free of charge.

If you have already paid for this service…

If you paid to have this service done before the date of this letter, Ford is offering a full refund. For the refund, please give your paid original receipt to your dealer. To avoid delays, do not send receipts to Ford Motor Company.

In order to ensure your full protection under Emissions Warranty provisions and to avoid any inconvenience when renewing your registration, it is recommended that you have your vehicle serviced as soon as possible. Failure to do so may be considered to be a lack of proper maintenance of your vehicle.

Vehicles registered in California or Massachusetts…

The State of California and the Commonwealth of Massachusetts require the completion of emissions recall repairs prior to vehicle registration renewal. If your vehicle is registered in California or Massachusetts, it is subject to these requirements.

When your dealer completes this emissions recall repair, you will receive a Vehicle Emission Recall Proof of Correction certificate. **Please make sure that you receive a certificate from your dealer and that you have it with you when you renew your vehicle registration.**

It is also important for you to know that the certificate should be returned to the Department of Motor Vehicles (DMV) only if it is requested by the DMV. Otherwise, this certificate is to be held by you for your records.
