Safety Recall 02S32

Mr. John Sample
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number: 12345678901234567

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in 2002 model year Rangers built with the FX4 Off-Road Package and a Manual Transmission.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with Ford and Lincoln Mercury dealers, is to provide you with the highest level of service and support possible.

What the issue is …	In some of the affected vehicles it may be possible for the rear axle differential to crack when accelerating rapidly from a stop or when a spinning tire suddenly gains traction. A clunk or grinding noise may occur just before the rear axle differential breaks. A rear axle differential break, if not repaired, may result in rear axle lock up.
What Ford Motor Company and your dealer will do ...	Ford Motor Company will replace your rear axle assembly with a new one free of charge (parts and labor).
How long will it take?	The time needed to replace the rear axle assembly is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.
