AFFECTED VEHICLES

The following vehicles are affected under this program:

- Certain 2002 model year E350and E450 vehicles, equipped with a 5.4L or 6.8L gasoline engine, built at the Lorain Assembly Plant from the beginning of production for the 2002 model year through December 20, 2001
- Certain 2002 model year E350, E450 and E550 vehicles, equipped with a 5.4L or 6.8L gasoline engine and 55 gallon fuel tanks, built at the Lorain Assembly Plant from the December 21, 2001 through March 6, 2002

REASON FOR THIS ACTION

Affected vehicles received incorrect Vehicle Emissions Control Information (VECI) labels for evaporative emissions during assembly.

SERVICE ACTION

Owners of the affected vehicles will be sent the correct label to install on the drivers side of the radiator support in the engine compartment, after the existing label has been removed. The owners may install the label themselves, or take the vehicle to a Ford or Lincoln Mercury dealership to have the label installed (See Attachment III for Installation Instructions).
