- **ENGINE—7.3L—"KNOCKING" OR "CACKLING" NOISE COMING FROM ENGINE—AVAILABILITY OF FUEL SYSTEM ACCUMULATOR**
- **NOISE—"KNOCKING/CACKLING" COMING FROM ENGINE—VEHICLES WITH 7.3L ENGINE—AVAILABILITY OF FUEL SYSTEM ACCUMULATOR**

Article No. 02-22-6

FORD: 2000-2003 F-650, F-750

Article **00-25-3** is being republished in its entirety to update the model year coverage.

ISSUE

Some Medium Duty vehicles equipped with the 7.3L Powerstroke diesel engine may exhibit a noise above the normal sound of the diesel combustion. This noise may sound like a rod knock, but is intermittent and increases in intensity as the engine warms up to operating temperature. The "cackle" noise may be caused by pressure variation within the fuel rail. "Cackle" noise does not damage the engine, or decrease the engine's performance or fuel economy.

ACTION

Install Fuel System Accumulator Kit YC3Z-9N163-AA. This kit is designed to reduce the "cackle" noise caused by fuel pressure variations within the fuel rail. Refer to the instruction sheet and parts included with the Service Kit.

PART NUMBER	PART NAME
YC3Z-9N163-AA	Kit - Fuel System Accumulator

OTHER APPLICABLE ARTICLES: NONE
SUPERSEDES: 00-25-3
WARRANTY STATUS: Eligible Under The Provisions Of Bumper To Bumper Warranty Coverage

NOTE: The information in Technical Service Bulletins is intended for use by trained, professional technicians with the knowledge, tools, and equipment to do the job properly and safely. It informs these technicians of conditions that may occur on some vehicles, or provides information that could assist in proper vehicle service. The procedures should not be performed by "do-it-yourselfers". Do not assume that a condition described affects your car or truck. Contact a Ford, Lincoln, or Mercury dealership to determine whether the Bulletin applies to your vehicle.
