Quality Care is there for you throughout the year.

Ford Motor Company is committed to providing you with superior service throughout your entire ownership experience. That's why we are offering you these three great options to choose from. We hope that you enjoy your personal check or Owner Loyalty Certificate or new radiator.

Hot sun and heavy hauls can be cruel, but we are confident that your F-150 will continue its tradition of being "cool under fire." Keep on trucking through every Built Ford Tough season. And know we've got you covered. Don't even sweat it.

COOL UNDER FIRE.

YOUR CHECK ENCLOSED

COOL COMPENSATION

For the hottest truck around.

At Ford, the standards for super cooling are as tough as our brand name. Your vehicle is designed to stay "cool under fire." Even when you break a sweat.

When you purchased your truck, you received a Heavy-Duty Electrical/Cooling System Package because you ordered it or because it was included as part of your Trailer Tow Package. The Heavy-Duty Electrical/Cooling System Package included a higher capacity battery and auxiliary transmission oil cooler* to back up the radiator that is currently installed in your truck. However, due to a publication error, it was listed as including an "upgraded" radiator.

Ford regrets the misprint in our sales literature and would like to emphasize that your truck's performance is not affected by the discrepancy. Your current radiator not only meets — it exceeds — our super cooling requirements.

The "upgraded" radiator that was listed as part of the package is used only in the trucks with the 7,700-lb. Payload Group option. To modify your F-150 by installing this radiator would not increase the payload or towing capacity of your truck.

However, Ford Motor Company is committed to keeping promises. That's why we are offering you three great options. Please read the following information carefully to decide which option is best for you.

*Auxiliary transmission oil cooler for automatic transmission only.

OPTION 1:

The check.

Ford Motor Company stands by the quality of its trucks. And you can take us to the bank on it. Literally. Attached to this letter, you will find a check for $100. This check can be redeemed for its full value at your bank for 60 days after its issue. (By cashing the check, you will waive your eligibility to receive Options 2 and 3.)

OPTION 2:

The gift.

Ford Motor Company appreciates your business. We would like to thank you for your patience in this matter by offering you a $500 Owner Loyalty Certificate (OLC) good toward the purchase or lease of a new Ford. (By choosing this option, you waive your eligibility to receive Options 1 and 3.)

To receive the $500 OLC offer, please check the box marked "$500 Owner Loyalty Certificate" on the attached check and send it to Radiator Program Headquarters, using the enclosed postage-paid envelope. In return, you will receive the OLC, in your name, to assist in the purchase of your next Ford car or truck. The OLC is valid until December 31, 2002, and it is transferable to immediate family members residing in your household.

OPTION 3:

The modification.

Ford Motor Company will modify your F-150 by installing the 7,700-lb. Payload Group radiator. Please keep in mind that since the 7,700-lb. Payload Group radiator is produced in limited quantities, the wait for this modification may be several months, depending on demand. (By choosing this option, you waive your eligibility to receive Options 1 and 2.)

To have the radiator installed, please check the box marked "7,700-lb. Payload Group Radiator" on the attached check and send it to Radiator Program Headquarters, using the enclosed postage-paid envelope. When your radiator is available, you will receive a voucher with your truck's Vehicle Identification Number, valid for 60 days after date of issue, for the no-cost modification. Without the voucher, your dealer will be unable to perform the radiator modification.

If you choose Option 3, we hope that you will be satisfied with the 7,700-lb. Payload Group radiator. Like all F-150 applications, we're sure that you will find it is Built Ford Tough.
