October 2002

TO: All Ford and Lincoln Mercury Dealers

SUBJECT: Optional Upgrade Program 02B02: Certain 1992 through 2003 Model Year Crown Victoria Police Interceptor (CVPI) Vehicles Currently in Law Enforcement Duty - Installation of Optional Police Interceptor Package Upgrade Kit

OASIS : Yes - Activated October 22, 2002

1. Only CVPI vehicles built in the affected time period currently in law enforcement duty are eligible for this program. Ford has used motor vehicle and U.S. postal records to purge vehicles known to no longer be in law enforcement duty.
2. If you encounter a vehicle currently in law enforcement duty that is not listed in OASIS, see ATTACHMENT I, page 1.
3. See "FINAL ELIGIBILITY CHECK" on ATTACHMENT I, page 1.

OWNER LIST:No

PROGRAM TERMS: This program will be in effect until November 30, 2003, regardless of mileage.

AFFECTED VEHICLES

Certain 1992 through 2003 Model Year Crown Victoria Police Interceptor (CVPI) vehicles currently in law enforcement duty built at the St. Thomas Assembly Plant from Job #1, 1992 through October 21, 2002.

REASON FOR PROGRAM

The CVPI is a safe and effective vehicle for police work. On October 3, 2002, the National Highway Traffic Safety Administration (NHTSA) closed its investigation into high-speed rear impacts involving Crown Victoria vehicles without finding a defect. Ford accepted the challenge to look for additional opportunities to make the vehicle (and the police-working environment) even safer in high-risk situations.

Because law enforcement vehicles are frequently exposed to high-speed traffic situations, Ford is making available to law enforcement fleets optional upgrades that will reduce the risk that high-speed rear impacts will cause fuel tank punctures.

SERVICE ACTION

The dealer will install an optional, upgrade kit at no-charge for CVPI vehicles currently in law enforcement duty. The upgrades are:

- Axle-mounted shields
- Fuel tank strap shields
- A differential shield
- Revised mounting of the evaporative emissions canister ('98 – '03 MY only)

NOTE: This optional Crown Victoria Police Interceptor package upgrade will be available for no-charge installation only on CVPI vehicles currently in law enforcement duty.

SPECIAL PARTS ORDERING PROCEDURE

Beginning October 22, 2002, law enforcement fleets using CVPI vehicles currently in law enforcement duty will be asked to register using their Fleet Identification Number (FIN) on www.cvpi.com to allow priority parts ordering. Fleets without web access or FIN codes may register at the Police Interceptor Registration Center via telephone at 1-800-490-4288. Eligible fleets may establish a FIN code by calling the Fleet Customer Information Center at 1-800-34-FLEET.

Once on the cvpi.com website, the fleet representative will input fleet name, contact and vehicle information. The fleet representative must also indicate he/she agrees to review information on the cvpi.com website. Fleets without web access will be sent information contained on the website. Once the required information is provided, an Authorization Number will be generated by the website. The fleet will provide their dealer(s) of choice the Authorization Number, which will allow priority ordering of parts.

Dealers will then contact the Low Volume Coordination Center at 1-800-248-0186 and provide the fleet's Authorization Number to order parts (up to the authorized quantity). A verification of the Authorization Number will be performed and the parts will be ordered for you by the Program Coordination Center.

Fleets who do not register may still order parts through their servicing dealer(s); however, priority fulfillment of parts orders will be given to registered fleets.

Depending upon law enforcement fleet registrations, upgrade kits should arrive at your dealership after October 28, 2002. It is estimated that 10% of total kits required to upgrade CVPI vehicles will be available by October 31, 2002. No kits will be available for law enforcement fleets that choose not to register or for retail purchase and installation until supply exceeds registered law enforcement demand. It is anticipated that parts ordering restrictions will be removed beginning January 2, 2003.

Optional Police Interceptor Package Upgrade Kit

OASIS

You must use OASIS to determine if a vehicle is eligible for this program. Not all CVPI vehicles built in the affected time period are eligible for this program because many are no longer in law enforcement duty. Ford has used motor vehicle and U.S. postal records to purge vehicles known to no longer be currently in law enforcement duty. If you encounter a vehicle currently in law enforcement duty that is not listed in OASIS, see below. Also, see "FINAL ELIGIBILITY CHECK" below for additional restrictions.

VIN ADDITION OF NON-P71 VEHICLES CURRENTLY IN LAW ENFORCEMENT DUTY

Non-Police Interceptor package Crown Victoria vehicles (P70, P72, P73, P74) currently in law enforcement duty & subjected to risk of high-speed, high-energy rear impact collisions may have 02B02 performed at no-charge at the request of a law enforcement official. Documentation of law enforcement use, such as a letter on department letterhead with VIN, is required. Please call 1-800-325-5621 to request the addition to OASIS of a non-P71 Crown Victoria vehicle currently in law enforcement duty.

FINAL ELIGIBILITY CHECK AND REMOVAL OF INELIGIBLE VEHICLES FROM OASIS

In addition to preliminary eligibility verification through OASIS, please verify by visual inspection the vehicle is currently in law enforcement duty.

Under 02B02, all CVPI vehicles currently in law enforcement duty can be upgraded at no-charge. Many CVPI vehicles are sold to the secondary market (taxi, private use) after retirement from law enforcement duty. Based on vehicle registration data available to Ford, some of these secondary market vehicles may inadvertently receive an owner letter. Therefore, possession of a letter from Ford does not, in itself, indicate eligibility for 02B02. CVPI vehicles in the secondary market are not eligible for no-charge upgrades under the terms of program 02B02. If the CVPI is no longer currently used in law enforcement duty, and the VIN is active in OASIS, submit a claim for VIN closure (see ATTACHMENT II).

PLEASE NOTE

If requested by your law enforcement fleet customer, correct in-stock vehicles before delivery.

You must contact the Low Volume Coordination Center at 1-800-248-0186 to arrange for parts if you have an involved vehicle in stock. When calling this number, identify Optional Upgrade Program 02B02 and have the VIN of the dealer stock vehicle to be serviced.

DEALER-OWNER CONTACT

An Online Involved Unit Listing will not be available for this program. Not all CVPI vehicles built in the affected time period are eligible for this program. Ford has used motor vehicle and U.S. postal records to purge vehicles known to no longer be currently in law enforcement duty.

CLAIMS PREPARATION AND SUBMISSION

- Enter claims using DWE.
- Refer to ACESII manual for claims preparation and submission information.

STATUS OF TECHNICAL SERVICE BULLETIN (TSB) 01-21-14

Optional Upgrade Program 02B02 eliminates the need for TSB 01-21-14. Warranty claims submitted for performing TSB 01-21-14 on or after September 27, 2002 will not be processed.

OWNER REFUNDS FOR TSB 01-21-14

Ford Motor Company will only refund owner-paid repairs for TSB 01-21-14 made before September 27, 2002 on CVPI vehicles currently in law enforcement duty. No other requests for refunds, including repairs not endorsed by Ford Motor Company, will be accepted. Refer to ACESII manual for refund information.

PARTS ORDERING INFORMATION

LAW ENFORCEMENT VEHICLES:

Beginning October 22, 2002, law enforcement fleets using CVPI vehicles currently in law enforcement duty will be asked to register using their Fleet Identification Number (FIN) on www.cvpi.com to allow priority parts ordering. Fleets without web access or FIN codes may register at the Police Interceptor Registration Center via telephone at 1-800-490-4288. Eligible fleets may establish a FIN code by calling the Fleet Customer Information Center at 1-800-34-FLEET.

Once on the cvpi.com website, the fleet representative will input fleet name, contact and vehicle information. The fleet representative must also certify he/she agrees to review information on the cvpi.com website. Fleets without web access will be sent information contained on the website. Once the required information is provided, an Authorization Number will be generated by the website. The fleet will provide their dealer(s) of choice the Authorization Number, which will allow priority ordering of parts.

Dealers will then contact the Low Volume Coordination Center at 1-800-248-0186 and provide the fleet's Authorization Number to order parts (up to the authorized quantity). A verification of the Authorization Number will be performed and the parts will be ordered for you by the Program Coordination Center.

Fleets who do not register may still order parts through their servicing dealer(s); however, priority fulfillment of parts orders will be given to registered fleets.

Depending upon law enforcement fleet registrations, upgrade kits should arrive at your dealership after October 28, 2002. It is estimated that 10% of total kits required to upgrade CVPI vehicles will be available by October 31, 2002. No kits will be available for law enforcement fleets that choose not to register or for retail purchase and installation until supply exceeds registered law enforcement demand. It is anticipated that parts ordering restrictions will be removed beginning January 2, 2003.

STOCK VEHICLES:

If requested by your law enforcement fleet customer, upgrade before delivery in-stock vehicles listed in OASIS.

Contact the Low Volume Coordination Center at 1-800-248-0186 to arrange for parts. When calling this number, identify Customer Satisfaction Program 02B02 and have the VIN of the dealer stock vehicle to be serviced.

Parts ordering will be restricted to the process listed above through December 31, 2002. Beginning January 2, 2003, order your parts requirement through normal order processing channels.

PART REQUIREMENTS

Parts will not be direct shipped for this program. Parts will be available the week of October 28, 2002 at approximately 10% of total kits required to upgrade CVPI vehicles. Although at launch the upgrade kit inventory may not support completion of all orders, partial shipments will be made on a fair share basis from facing depots until order requirements are completed. Up through **December 31, 2002**, order status by fleet and authorization number will be communicated via CUDL and DOES II.

All Orders	Until **December 31, 2002**	Contact 1-800-248-0186 with Authorization Number
All Orders	January 2, 2003 and after	Normal Order Process

Part Number	Description	Quantity Per Vehicle
3W7Z-9B007-AA	MY 2003 Upgrade Kit	1
3W7Z-9B007-BA	MY 1998-2002 Upgrade Kit	1
3W7Z-9B007-CA	MY 1992-1997 Upgrade Kit	1

ORDER INFORMATION

The DOR/COR for this program is 50287. This number identifies parts ordered for this Optional Upgrade Program through the Low Volume Coordination Center (1-800-248-0186).

DEALER PRICE

For latest prices, check DOES II or updated price book.

PARTS RETENTION

Not applicable for this program.

EXCESS STOCK RETURN

Excess stock returned for credit must have been purchased from Ford Customer Service Division in accordance with Policy Procedure Bulletin 4000.
