02E20 Powertrain Control Module Reprogramming

05/27/2002

Please check OASIS to verify vehicle involvement in Emissions Recall 02E20. Even though the production date of a unit is within the production dates in the bulletin it must also have one of the affected calibrations and corresponding catchword listed in Attachment III. If the VIN is not on OASIS the vehicle does not have an affected calibration and does not qualify for the program.
