Emissions Recall 02E18

Mr. John Sample
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number: 12345678901234567

Lincoln values you as a customer and is committed to vehicle quality and the environment. Therefore, we are voluntarily recalling certain 2000 Lincoln LS vehicles built with 3.9L V8 engines.

**What is the emission concern?…**

In affected vehicles, the thermostat may stick in the closed position, resulting in a higher temperature gauge reading than usual. In most cases, this condition would not affect vehicle performance. However, occasionally, the condition may cause the engine to overheat. This means that affected vehicles may not meet emissions standards. Because we are committed to your satisfaction and to the environment, we would like to service your vehicle without delay.

**What Lincoln and your dealer will do...**

Lincoln will replace the thermostat free of charge (parts and labor). Owners who are affected by this Emissions Recall are requested to return their vehicle to their dealer for replacement of the engine thermostat.

**How long will it take?**

The time needed for this repair is less than one-half day. However, due to service scheduling issues, your dealer may need your vehicle for a longer period of time.
