SUPPLEMENTAL RESTRAINT SYSTEM (SRS) COMPONENT REPLACEMENT

AFFECTED VEHICLES: **CERTAIN 2001 MODEL YEAR CROWN VICTORIA, GRAND MARQUIS, TOWN CAR AND WINDSTAR**

OVERVIEW

Vehicles in this program will require replacement of either the front crash sensor, side crash sensor or restraint control module (RCM). The vehicle identification number (VIN) will determine what component will be replaced. This procedure will provide the information for identifying the affected component and refer you to the Workshop Manual for the proper service procedure.

SERVICE PROCEDURE

1. NOTE: Mutilate and discard all original components to prevent them from being installed on another vehicle.

   Compare the last six (6) digits from the vehicle identification number to the charts below and on Pages 2 and 3 to determine what component to replace. Each vehicle will only require one component to be replaced.

2. Replace the component identified in the chart. Refer to the service procedures in section 501-20B in the appropriate Workshop Manual.
