TRACTION BATTERY MODULES—ELECTRIC VEHICLE—ORDERING PROCEDURE	Article No. 99-16-13

FORD: 1998-2000 RANGER

ISSUE

Clarification on how to obtain Ranger Electric Vehicle (EV) traction battery modules is being made available through this TSB.

ACTION

Dealers must order traction battery modules (BXE202 for 8-volt lead acid and BXE203 for 12-volt nickel metal hydride) through Dealer Order Entry System (DOES) II. Only certified EV dealers can enter orders for these batteries.
