October 2002

02B02

Mr. Fleet Manager
123 Main Street
Anywhere, USA 12345

Your Vehicle Identification Number: 12345678901234567

This letter is intended for law enforcement fleets. If your vehicle(s) is not currently in active law enforcement duty, you may disregard this letter.

The Crown Victoria Police Interceptor (CVPI) is a safe and effective vehicle for police work. Ford is committed to our police customers' safety and is continuously improving our products.

In order to even further reduce the risk for a fuel tank puncture in a very high-speed rear-end impact, Ford Motor Company is providing a no-charge Optional Upgrade Program (Program Number 02B02), to owners of certain 1992 through 2003 model year CVPI vehicles currently in law enforcement duty. Program details can be found on ATTACHMENT I of this letter.

Please recognize that police officer safety depends on a range of factors. Addressing the entire spectrum of law enforcement work practices and equipment is the best way to help reduce the risk of injury to officers involved in rare high-speed, high-energy rear impact collisions. Visit www.cvpi.com for ideas to further improve police officer safety.

Ford is committed to our law enforcement customers' safety. This optional upgrade demonstrates Ford's commitment to make a safe and effective police vehicle even safer for police work. Thank you for your attention to this important matter.

What *Ford Motor Company* and your dealer will do…

In order to even further reduce the remote risk for a fuel tank puncture in a very high-speed rear-end impact, your dealer will install an optional, no-charge upgrade kit for CVPI vehicles currently in law enforcement duty. The upgrades are:

- Axle-mounted shields
- Fuel tank strap shields
- A differential shield
- Revised mounting of the evaporative emissions canister ('98 – '03 MY only)

This optional Crown Victoria Police Interceptor package upgrade will be available for no-charge installation only on CVPI vehicles currently in law enforcement duty.

This program will be in effect until November 30, 2003, regardless of mileage.

How long will it take…

The time needed for this upgrade is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What we are asking you to do…

Beginning October 22, 2002, visit www.cvpi.com to register your current law enforcement fleet to allow priority availability of parts. You will need a Fleet Identification Number (FIN) to register via the web. If you do not have a FIN code and wish to establish one, contact the Fleet Customer Information Center at 1-800-34-FLEET. If you do not have web access, call the Police Interceptor Registration Center toll-free at 1-800-490-4288 and inform the Ford representative that you wish to register your current law enforcement fleet for parts under Optional Upgrade Program 02B02. Representatives are available 7:30AM to 7:30PM Monday through Friday, and 8:00AM to 3:00PM on Saturday (times are Eastern Time).

Once on the cvpi.com website, you will need to input basic fleet, contact and vehicle information. You will be asked to review information on the cvpi.com website.

Successful completion of the registration process will generate an Authorization Number. Contact the dealer(s) of your choice and provide them the Authorization Number. The Authorization Number will allow the dealer to order parts on a priority basis.

Fleets who do not register may still order parts through their servicing dealer, however, priority fulfillment of parts orders will be given to registered fleets.

If you have already paid for TSB 01-21-14…

Optional Upgrade Program 02B02 eliminates the need for Technical Service Bulletin (TSB) 01-21-14. If you previously paid for service under the terms of TSB 01-21-14 before September 27, 2002, Ford Motor Company is offering a refund. For the refund, please give your paid original receipt to your dealer or warranty service provider. To avoid delays, do not send receipts to Ford Motor Company.

Adding a Non-CVPI vehicle…

Non-Police Interceptor package Crown Victoria vehicles (body codes P70, P72, P73 and P74 as denoted by the 5th, 6th and 7th positions of the VIN) currently in law enforcement duty may have program 02B02 performed at no-charge at your request. Documentation of law enforcement use, such as a letter on department letterhead with VIN, should be provided to the dealership of your choice.

If you have changed address or sold the vehicle to another law enforcement agency…

Please fill out the enclosed prepaid postcard and mail it to us so we can update our records. If you have sold the vehicle to another law enforcement agency, the information you provide on the postcard will be used to notify the new law enforcement agency about this program.

If you have concerns …

If you have trouble getting your vehicle repaired promptly and without charge, please contact your dealership's Service Manager for assistance.

If you still have concerns, please contact the Fleet Customer Information Center at 1-800-34-FLEET and one of our representatives will be happy to assist you:

Office Hours: (Eastern Standard Time)
Monday-Friday: 9:30AM to 6:00PM

Or you may contact us through the internet at www.fleet.ford.com.
