October 2002

TO: All Ford and Lincoln Mercury Dealers

SUBJECT: Special Field Action 02L11: Certain 1999 through 2002 Model Year F-Super Duty Vehicles, 1999 through 2002 F-53 Stripped Chassis Vehicles and 2000 through 2003 Excursion Vehicles – Wheel Lug Nut Torque Specification and Procedure Label

OASIS: No
OWNER LIST: No
PROGRAM TERMS: This program will be in effect until, May 31, 2003, regardless of mileage.

VEHICLES COVERED BY THIS ACTION

Vehicles Lines	Model Year	Assembly Plant	Build Dates
F-Super Duty	1999 through 2002	Kentucky Truck Plant and Cuautitlan Assembly Plant	Beginning of Production through the End of Production
F-53 Stripped Chassis	1999 through 2002	Monterrey/IMMSA and Detroit Chassis Plants	Beginning of Production through the End of Production
F-Super Duty	1999 through 2002	Ipranga Assembly Plant/Sao Bernardo	Beginning of Production through the End of Production
Excursion	2000 through 2003	Kentucky Truck Plant	Beginning of Production through September 08, 2002

REASON FOR PROGRAM

Certain vehicles were shipped with owner guides and jacking instruction cards that do not contain the proper torque specification and procedure for installing the wheel lug nuts. Vehicle operation without the proper torque and procedure applied to the wheel lug nuts could possibly result in wheel lug nuts becoming loose. Continued vehicle operation with loose wheel lug nuts may eventually cause the wheel studs to shear.

SERVICE ACTION

In-stock units:

Dealers with affected in stock units will be mailed, the first week of November 2002, a list of VIN's, labels and jacking instruction cards for all affected vehicles. Prior to delivery, dealers are to attach the new wheel lug nut torque specification and procedure label to the inside front cover of the owner's guide on all affected vehicles in stock. For F-250/350 Super Duty attach the label and replace the jacking instruction card with a new instruction card.

Sold units:

- Owners of certain 1999 through 2002 model year F- Super Duty 250/350 and 2000 model year Excursion vehicles will be mailed a notification letter, which contains a wheel lug nut torque specification and procedure label and an updated jacking instruction card.

- Owners of certain 1999 through 2002 model year F450/550 and F53 vehicles and certain 2001 through 2003 model year Excursion vehicles will be mailed a notification letter, which contains a wheel lug nut torque specification and procedure label only.

- Owners will be asked to attach the label to the inside front cover of their owner's guide and if applicable, replace the jacking instruction card with the new one provided.
